

REMARKS

The Office Action mailed on February 13, 2007, has been reviewed and the comments of the Patent and Trademark Office have been considered. Prior to this paper, claims 12-32 were pending. By this paper, Applicants cancel claims 29-32 and amend independent claims 12, 17, 24 and 26 to include the recitations of cancelled claims 29-32 (effectively placing those claims into independent form) and do not add any claims. Therefore, claims 12-29 are now pending.

Applicants respectfully submit that the present application is in condition for allowance for at least the reasons that follow.

Indication of Allowable Subject Matter

Applicants thank Examiner Fastovsky for the indication that claims 29, 31 and 32 contain allowable subject matter. In reliance on this indication, Applicants have amended claims 12, 24 and 26 to respectively include the recitations of claims 29, 31 and 32. Also in reliance on this indication, Applicants have amended claim 17 to include the recitations of claim 30, and to also recite that the boron nitride is uniformly dispersed in the carbon.

Rejections Under 35 U.S.C. §§ 102/103

Claims 12-13 stand rejected under 35 U.S.C. §102(b) as being anticipated, and claims 14-28 and 30 stand rejected as being obvious under 35 U.S.C. §103(a).

In response, in order to advance prosecution, and without prejudice or disclaimer, Applicants have incorporated the recitations of formerly pending claims 29, 30, 31 and 32 into claims 12, 17, 24 and 26, respectively, effectively placing claims 29-32 into independent form, and also amended claim 17 to recite that the boron nitride is uniformly dispersed in the carbon. Accordingly, Applicants respectfully submit that the prior art rejections are now moot.

Conclusion

Applicants believe that the present application is now in condition for allowance. Favorable reconsideration of the application as amended is respectfully requested.
